# Wedding Photography

Every wedding is different. We endeavour to capture the essence of the wedding. We take as many images as is necessary and then give you the difficult task of choosing those that you want in the album and which to have framed to hang on

the wall. The more difficult that is for you the more you will enjoy the final selection ..... Of course, you can always have all that we take!

The prices quoted are just a guide, everything can be changed. If you wish something different, just ask for a quotation.

The Coffee Table Wedding Books are hand bound with real leather and are available in a selection of colours.
